SCENARIO:
Port facility personnel with specific security tasks and responsibilities must have good understanding of these tasks and responsibilities. Test their theoretical knowledge using a questionnaire drawn up in-house, for example:
- What is ISPS?
- What is the PFSP?
- Who is the PFSO?
- Which is the competent authority?
- What is the difference between the CSO and the SSO?
- What is the difference between security levels 1, 2 and 3?
- What is the escalation procedure?
- …

TOOLS:
- Security Questionnaire

LOCATION:
- Facility

PARTICIPANTS:
- PFSO
- Security guards
- Personnel with security responsibilities

OBJECTIVES:
- Ensure that personnel with security responsibilities are aware of their related tasks
- Minimise weaknesses by ensuring good basic knowledge of ISPS
- Ensure good security organisation in which each person knows what he/she has to do
