DRILL 23  Access to the port facility

Regulation 725/2004: A/14.2.2 B/15.3

SCENARIO:
Check how long unmanned, remote-controlled gates remain open, e.g. rail gates, second entrances, suppliers’ entrances etc.
For this drill the PFSO can also have the gate opened.

LOCATION:
• Facility – security guardhouse – porter’s lodge – control room

PARTICIPANTS:
• PFSO
• Security guards
• Porter
• Facility personnel

OBJECTIVES:
• Avoid these gates standing open for too long
• Prevent unauthorised persons gaining access through them
• Assure correct monitoring of the way these gates are operated by all parties involved (including external people, e.g. rail/road operators)
• Create awareness concerning these gates among personnel
